INSTALLATION INSTRUCTIONS

What's in the Box: (1) Mesh Grill Piece

Small Cable Ties, Dremel or similar, Phillips and Flathead Screwdriver, Tin Snips, Metal

Tool List: File, Ratchet & Socket Set

Grill Mesh Installation:

1. Remove plastic cover panel over radiator and ac condenser to access the front grill assembly. Use small flat tip screw driver to remove plastic push pin clips.
2. Take off grill assembly by removing the 6 plastic push pin clips and single bolt in center. The bottom corners are mounted via two tab clips adjacent to headlight. Push tabs from inner aspect of grill and pull forward.
3. Now that grill assembly off of vehicle, disassemble painted exterior molding from oem plastic grill by removing surrounding phillips screws.
4. Carefully dremel the oem plastic grill center along the border. Use metal file to smooth rough edges.
5. Align precut grill mesh to bottom of oem grill opening. If trimming is needed, use tin snips to around the edges. Leave approx 1cm of grill mesh material on the outside edge of side and top of grill border.
6. Use 3 small black zip ties to secure grill mesh to bottom edge.
7. Place the painted exterior molding over grill assembly and use to wedge grill mesh. Secure grill assembly with original Philips screws.
8. For cleaner install, paint ac condenser with high temp flat black paint.
9. Reinstall grill assembly. Use 3m double sided tape to mount emblem if desired.
