Year: 2009-2010  
Make: Dodge  
Model: Journey

## INSTALLATION INSTRUCTIONS

**What's in the Box:** (4) Mesh Grill Inserts, (8) Cable Ties, Small Spool of Metal Wire (optional).

**Tool List:** Drill with 3/16" Drill Bit, Wire Cutters.

### Upper Bumper Grill Mesh Installation:

#### LOWER TWO INSERTS:

1. Start by opening your hood and propping your hood up. You need to remove the factory grill or gain access to behind the grill area.
2. Place one of the inserts over the stock grill in the appropriate place.
3. Start to feed the cable ties in from behind. Push the tail part of the tie through first. The head part of the tie should be concealed behind the stock grill.
4. Loop the tail part of the tie through an adjacent vertical diamond in the mesh. When done properly, there should be a minimal amount of the tie shown on the front of the vehicle.
5. Loosely secure the tie. Make sure you have the tie looped around one mesh diamond and one plastic OEM horizontal plastic bar. Repeat this step around the grill. Try to keep the ties in the corners or middle for the most secure hold.
6. Repeat step 3-5 until you have a minimum of two of the tie ends through each insert.
7. When you are satisfied with the placement of the grill and the ties, fully tighten the ties. Clip the ends of the ties.
8. Repeat those steps for the other insert.

#### UPPER TWO INSERTS

11. Repeat the steps 2-7 for the upper grills but since the stock grill is solid in this area you will need to drill (2) 3/16" holes (where indicated with green circles) per cable tie.

PLEASE NOTE: The instructions provided are the suggested installation method. If you feel that the installation instructions are inadequate or unsafe then please feel free to develop your own installation techniques that fit your exact needs. customcargrills.com llc is not liable for any personal or property damage resulting from our products.
